## ORDER FOR RECORDING MICROCHIPS

The company known as \_\_\_\_\_ with VAT N° \_\_\_\_\_ asks Felixcan for an order for recording microchips. This order is referenced under these lines and the applicant promises to the following:

1. The applicant admits that he/she knows not only the International Standard ISO 11784 that regulates the code regulations, but also the codification of the content of the microchips used for the animal identification.
2. The applicant also admits that he/she knows the specific local standard affecting the country where these microchips are going to be distributed and he states to abide by them.
3. The applicant admits that he/she has the right to distribute the microchips in the designated country.
4. The applicant admits that he/she will use these microchips for animal identification exclusively.
5. The applicant admits responsibility, in a direct way, for confirming that the series of codes asked in that order fulfil the following requirements:
  - a) It is valid for the country where they will be distributed.
  - b) They have NEVER been used previously, neither by the applicant nor by any other society having knowledge awareness.

For all those reasons, the legal capacity to do this order is admitted and that he/she admits all the responsibilities that can derive from the use of the ordered microchips, neither by the applicant nor by all his/her distributors and for that, he signs hereunder.
